COOEE DESIGN

Inspired by nature, big city life and art Cooe Design was established back in 2008 in Småland, Sweden.

The iconic Ball vase was the first product launched in the ceramic series, met by success, and over time the assortment developed to the well thought through collection available today.

Minimalistic shapes, muted colours and a high quality product range; Cooe Design offers a sophisticated range of vases, trays, candleholders, sculptures and napkins to a wide, contemporary audience all over the world.

MATERIAL & FSC

The material used for all products in the Woody Furniture series is FSC certificated.
All products are available in natural oak and black stained oak.

Coee Design constantly work towards meeting our and our customers ESG standards and with this collection we are proud to have reached our goals that we and Eddie Gustafsson set out for when starting the project.

Eddie Gustafsson

Eddie Gustafsson is a Swedish designer who works out of a studio nestled in nature of Sweden's Småland region, known for its prolific design industry. As a creative problem solver, he continuously inspects his surroundings and social context for ways to improve people's lives while making them more beautiful. Striking the right balance between the functional and the aesthetic is what drives his design process.
