Timeless and Nonchalant Elegance

Norman Copenhagen's Ace furniture range stands out for its soft and rounded appearance, and this characteristic design has been carried over into a sofa, armchair, footstool, bar chair and dining chair. A backwards-leaning backrest and cheekily angled legs give edge and attitude, resulting in a design of timeless and nonchalant elegance.

Danish designer Hans Hornemann took inspiration for the Ace series from his own life in Copenhagen. The series aims at urban dwellers, who prioritize quality and aesthetics but who must also adapt to the limited space of life in the city. With a recurring design trait of friendly, organic lines, Ace offers maximum comfort in condensed form.

The design balances between the refined and the relaxed. Rounded contours emphasize the inviting volume of the full upholstery and are framed elegantly by the piping around the seat and back.

Ace can be customized from various textile and leg options. The series is available upholstered in leather and seven different textile qualities, which come in a wide range of different colors. The selection of legs depends on the specific type of furniture.
