An Elegant Calculation

Two, four, nine modules? Whatever the number, the sum is as follows: a well-proportioned sofa design that stands as the epitome of contemporary elegance. Sum is the name of Normann Copenhagen's take on a light modular sofa, which has the same complete appearance, whether it is set up in a two-seater version or as a several metre long lounge dream.

The design is stringent and focused, but invitingly open in character: elegant and resolute as a wingspread stretching out into the air, the sofa spreads out its armrests and invites you into its soft and homely space. Slim, angled legs lift it from the floor in a delicate counterpoint to the generous contours of the back and armrest.

To achieve a lighter expression than the boxy look that often characterizes modular sofas, the design has been boiled down to the absolute narrowest form that can be structurally achieved. The sofa is moulded in yielding foam, allowing the slim design to provide maximum comfort.

Sum's contrasting design facets are framed by a harmonious modular concept. In a seemingly effortless flow, the lines of the modules meet and merge into an integrated whole. Also, the rear has been taken into consideration, so the sofa can stand in the middle of a room and delight the eye from all angles.

The Sum sofa can be built up from eight different modules, angled or straight, with open or closed sides. Add up the parts you want into a customised sofa design and create welcoming and vibrant lounge areas, supplemented by the series' matching armchair.

Sum is made to order. You can choose from legs in shiny or black aluminium, and upholstery in a wide selection of shades of Camira textiles or Sørensen Ultra Leather.

Pressemeldelse Sum

Sum Armchair
Camira Main Line Flax

Sum Sofa
