The distinctive sleek, round shapes, and the perfect finish of the nine different glasses from the Base Glassware collection follow the trend of Studio Piet Boon's Base line for Serax. On an upright foot in the centre of a perfectly round circle, the four wine glasses, two champagne glasses, and the beer glass not only steal the show, the potassium glass also makes them

particularly strong. The two water glasses have been given a sandblasted effect, as a result of which fingerprints are less likely to remain on the glass. The glasses from the Base Glassware collection are packed as a set of four in beautiful gift boxes.
